CARPET INSTALLATIONS

Aspect Carpet Installations provides high quality carpet installation services to some of the UK's leading Interior Designers.

Over the years, we have carried out installation projects across the UK and Europe for a range of prestigious clients.

Why work with Aspect Carpet Installations?

We believe that detail really matters, and we appreciate the investment that your client is making in new floor coverings for their home. Our clients in turn tell us they appreciate us because we:

- Are well established, and have vast experience of high quality projects
- Deliver our projects on time and to unparalleled standards
- Offer bespoke, personal services which extend beyond basic installation
- Provide a reliable and safe pair of hands for their projects.

We also recognise our role in making sure that your client is happy with you.

That's why, in addition to being highly skilled in their craft, our fitters will always deal politely and courteously with your clients.

Working with you...

We do not supply carpet, but are delighted to advise on specification and selection for your requirements. We do, though, insist on supplying the underlay and fixings.

It costs nothing to engage with Aspect Carpet Installations. We offer full site surveys and quotation services, at no charge. Once the project, quantity and any particular requirements are agreed, we will provide a written estimate for you to factor into your project costing.

What our clients say...

“ Please pass on our warm regards and a very big thank you to your fitter for being so completely wonderful and accommodating.”

“ Your fitter achieved a much better result than we had initially thought possible. He is very skilled and works to perfect detail.”

“ Thank you for sending out one of your best people! It really helps our client relationships.”
